Churros Republic: Freshly made every day and the recipe was inspired by a Spanish Chef. So the product is very much close to Spain in what we have heard from the team. It took them 6 months to attain the crispiness on the exterior while soft on the inside which literally melts in our mouth. All the sauces are homemade and are not too sweet. Try them and tell us what is your preference!

EEK CHITRE

These churros from Churros Republic is another great dessert to consider. The churros are actually great by themselves, soft and fluffy on the inside, super crisp on the outside, rolled around in a healthy amount of sugar. Now add some chocolate sauce or this creme brulee on top, and you have yourself something special.
